PREFACE.

It is now two years since Dr. Ely sold by auction his United States Coins, in silver and copper, American Colonials, etc. The intervening time he has devoted to enlarging and improving his collection of the early issues of United States Gold Coins, which, when compared as presented in the following pages, with others that have been offered to the public, during the past 30 years, will be found to be worthy of a place in the front rank, both as to completeness in types and varieties, and high state of preservation of the pieces.

The new field in numismatics which the Doctor has entered for study, will, we trust, show to the public at some future time, a ground well worked over, calling forth the same commendation which marked his previous achievements.

GOLD PATTERNS.

ALL PROOFS.

2000 112 1878 10 Dollars. Head l. with cap ornamented with two heads of wheat, inscribed Liberty (incused), above IN GOD WE TRUST. 13 stars (7 facing), date in *Ex.* *Rev.* Eagle with upraised wings, head turned to l. ★ UNITED STATES OF AMERICA ★ — TEN DOLLARS above eagle E PLURIBUS UNUM. *By Barber.* Davis (In Coin Collector's Journal) 428.

1000 113 1878 5 Dollars. Same design as preceding, except motto above eagle is in two lines, instead of one. *By Barber.* Davis 427.

1000 114 1878 10 Dollars. Similar without the heads of wheat, E Pluribus Unum. *Rev.* Similar to preceding, with In God We Trust, above eagle. *By Morgan.* Davis 429.

500 115 1878 5 Dollars. Same as last. *By Morgan.* Davis 421.

These patterns, described by Dr. Davis, were known to him in copper only. It is stated upon high authority, that but two sets were struck in gold, one for the Secretary of the Treasury and the other for the Director of the Mint, and a lapse of ten years has revealed no others.

These two sets (face value $30.00) will be sold as one lot, if the starting bid is $75.00, otherwise they will be disposed of in sets, or by piece as catalogued, whichever the occasion demands.
